

## Product Testimonial – Arindas' Surf Easy

After recently installing an Internet Kiosk for a new client, where there had previously been a Kiosk supplied by another business, using software other than Arindas'... 'Surf Easy'....I received an email from the manager of the Resort to say...

"We are very impressed with what you have provided"

Great...brought a smile to my face...then...I called in a few days later and a staff member who had 'trialled' the Kiosk approached me and said...*with much excitement*...."Wow it is so 'easy to use', everything is there in front of you...just click and you are there...every where you need to go...banking, face book, plane flights...". (*Picture...arms waving in air*). He excused himself for his excitement...saying..."Sorry, but I have not experienced an Internet Kiosk so friendly before".

I replied "It is OK...I understand". (*Silently sharing in his excitement*). I explained that this was thanks to the software supplied by Arinda.

It was great to receive such positive feedback and made me proud to present my clients, current and prospective, with such a quality product and to be associated with such a quality business as Arinda, which can only help us drive and grow 'our' business to more success.

Thank you to the team at Arinda.

Yours sincerely

Sharon Toscano
